Stuyvesant Real Estate Company was or-ganized recently with Douglas Robinson, Clarence, H. Kelsey, James K. Gracie, Lewis B. Gawtry and Charles A. Cone as its directors, and its purchases, so far as known, comprise perhaps a majority of the parcels in the blocks bounded by Seventh and Eighth avenues and Thirty-first and Thirty-fourth streets. Some purchases west of Eighth avenue have also been credited to the company. However, no authentic statement has been obtainable with reference to the extent of the company. pany's acquisitions, except that these embrace the bulk of the property required for the site, and will be conveyed by it to the new railroad. The plans for the station have been completed by Jacobs & Davies, the consulting engineers, and, it is learned, were filed in the County Clerk's office yesterday just as that office was closing. It is understood that the Stuyvesant Real Estate Company is making liberal offers for the parcels still needed for the step in order to expedite construction site, in order to expedite construction work. According to present appearances, however, condemnation proceedings will have to be resorted to in not a few inhave to be resorted to in not a few instances. The company is to remain a permanent organization, and has already made some purchases in the neighborhood on its own account, so that possibly not all the property which it is reported to have acquired will be turned over to the railroad. A straight line from the Long Island City railroad yards crossing the rivers and passing through the corner of Seventh avenue and Thirty-third street would cut the Fest River edge of Manhattan about the East River edge of Manhattan about Thirty-seventh street and the North River edge about Thirtieth street and would reach Weehawken just above the Hoboken

Application for consent to the building the tunnel from the New Jersey line to of the tunnel from the New Jersey the to Long Island City has not yet been made to the Rapid Transit Commission. Con-sideration of a somewhat similar applica-tion made by the Long Island Extension Railroad Company some time ago for the building of a tunnel from Long Island City Control of the Control of the Sixth avenue, Manhattan, has, at the to Sixth avenue, Manhattan, has, at the request of the applicant, been postponed for the present.

#### TO IMPROVE THE PENNSYLVANIA A New Bridge Over the Raritan and a Tunnel Through the Alleghanies.

NEW BRUNSWICK, N. J., Dec. 11 .- The Pennsylvania Railroad Company awarded contracts to-day for extensive improvements to its system aggregating over \$1,000,000. The contracts are for building a four-track stone arch bridge over the Raritan River at New Brunswick, awarded to H. S. Kerbaugh, incorporated, of Philadelphia, and for driving a new tunnel through the crest of the Alleghanies at Gallitzin, to P. F. Brendlinger, also of Philadelphia. This tunnel will do away with the celebrated Horse Shoe curve of the Alleghanies.

The bridge over the Raritan River will be about 1,500 feet long, 57 feet wide, and will be composed of twenty-one stone arches. The structure will extend from Neilson street, in New Brunswick, crossing that street, the Delaware and Raritan Canal, the Raritan River and the low-lands on the opposite side of the river. It will be erected on the site of the present It will be erected on the siderable elevation iron bridge, at a considerable elevation above that structure, and sufficiently high above that structure, and sufficiently high to enable the comyany to carry out its project of elevating its tracks above the streets of New Brunswick, once the munici-pal authorities decide that they are tired grade crossings. In order not to inter-re with traffic, one-half the bridge will built first, to accommodate two tracks. With the completion of the new bridge the present draw over the canal will be dispensed with. The bridge will be con-nected with the present grade at George

The new tunnel at Gallitzin will be 3,000 The new tunnel at Gallitzin will be 3,000 feet long and will be located about eighty feet from the present tunnel at that point. It will be a single-track tunnel, twenty feet high, and when completed, the present Gallitzin tunnel, which was originally built as a double-track tunnel, but is not wide enough to enable two modern trains to pass each other, will be made a single-track tunnel. This, with the new tunnel, will be used for westbound traffic, and the old Portage tunnel, which was rebuilt some time ago and double-tracked, will be used for eastbound traffic.

## CHAPMAN WIELDS HIS AXE.

Only Chips of a Howery Poolroom Outfit Left When He Got Through -No Arrests. Capt. Chapman got out his trusty axe yesterday afternoon and swooped down on a poolroom at 950 Bowery. While he failed to discover the men who were running the place he left that poolroom looking like a bankrupt lumber yard

On Tuesday night the captain received a letter of complaint from a man who had dropped his good money in the place. He waited till afternoon and then started out to look up the complaint. No sooner did his whiskers turn into the Bowery than the news that he was coming preceded him in time for those within to bolt and bar the doors lending to the poolroom.

The room was on the first gloor facing the street. At the top of the stairs were doors strengthened within by heavy boards. Chapman got his axe to work and in two first experimented with a vegetarian diet to first experimented with a vegetarian diet to

Chapman got his axe to work and in two minutes the doors were good only fer kindling wood. A few feet beyond was another door. This was similarly treated, another door. This was similarly treated, and the captain and his men burst into the

and the captain and his men burst into the room. About forty men were waiting. There was no way of escape for them, except through the front windows.

There was all the evidence of a poolroom in full operation. The telegraphic histrument was ticking away merrily and there had been no time to tear down the betting cheets. But the captain and his men had been so long in smashing in the doors that cheets. But the captain and his men had been so long in smashing in the doors that the clerks had had lots of time to gather up the racing sheets and then to mingle with the crowd. Chapman, his whiskers bristling with anger, picked out six men and lined them against a wall.

\*Now," said he," the proprietor's here by Hen, and I want him to step out."

The crowd laughed

The crowd laughed "Gold dum it, remarked the captain, this sin't no jobs. The proprietor is here and he must step out and say I'm the bose."

and he must step out and say I'm the bose Jiminy (rimpe. I'm givin' you fellers a fair show, and I want the bose.

"Ha, has" chorused the crowd. Then Chapman houst have even the joke for he let them all go.

"By Han," he said, his whiskous carring up under his nose, "the proprietor of that placewas in these and he want t man strongly to let me have. But I put it out of business all right.

the did for less time gimest than it thisse

RATE CUTTING SPREADS. Harriman and Gould Roads Will Unite to

At the adjourned meeting of the chief traffic officers of the Western railroads to be held in Chicago on Dec. 20, a proposition will be submitted to organize another rate-controlling committee in the Kansas City territory. The Harriman and the Gould roads will work together in this matter and it is hoped that their joint influence will be effective in bringing the Chicago Great Western into line.

The traffic manager of one of the largest railroad systems in the West, who is now in New York, says that the recent spread of freight rate cutting is largely due to the scramble of the weaker roads for business that the strong roads cannot handle promptly because of the scarcity of cars Shippers of Eastbound freight, it is asserted, prefer to deal with the strong roads even when they pay a little more for transporta-tion, but recent delays in forwarding goods, supplemented by cuts of 40 and 50 per cent. in rates, have caused several large shippers

in rates, have caused several large shippers to negotiate with the weak lines.

Freight agents of the strong Western roads have begun to meet the cut rates of weaker rivals, and in some sections of the Missouri River territory it is said that large shippers can practically dictate their own terms.

The Chicago Great Western Railroad has announced a reduced passenger rate of \$7.80 for the round trip between Chicago and Kansas City as a retaliation for an excursion rate made by the Chicago and Alton to and from points in the Great

Alton to and from points in the Great Western's local territory.

All of the railroads operating between New York and Chicago were represented at a meeting of the joint passenger committee held in this city yesterday. The most important business transacted was to provide for the recasting of the rules applying to inter-territorial traffic so that they may be uniform. Vexatious differences have existed for some time past. These inter-territorial rules relate mainly to the handling of passenger traffic where party rates are made and where the passengers are transferred from one road to another.

# THEIR RULES OF HEALTH.

Air, Sunshine and Diet Discussed by Mme. Bernhardt and the Singers.

Mme. Patti's declaration that she has always kept the window of her room open night and day, in order that the air might be fresh and that she attributes her good health to this practice, has brought out an answer from Sarah Bernhardt who has had quite a different experience and yet enjoys such health that her remarks on the subject are worthy of attention

My way of life is exactly the opposite Mme. Patti's " the French actress said, for she demands air while I live always

"I drive in a closed carriage to the theatre. Enthusiasm keeps me alive and well. The fatigue of the theatre delights instead of

weakening me.

"I go to bed at 3 o'clock in the morning and get up at 9 o'clock. I am for twelve hours in the theatre without the fresh air or the daylight. At Belle Isle in the summer, I am continually in the open air for even when I am in the house, the windows

Most of the other celebrated women Most of the other celebrated women questioned about their daily regimen emphasized the importance of fresh air. Jane Hading found her greatest recreation in resting at her Neuilly villa and in travel.

Yvette Guilbert, who has been an invalid for three years and is therefore less of an authority on the subject than some of the Yvette Guilbert, who has been an invalid for three years and is therefore less of an authority on the subject than some of the others, recommends bathing, as the best means of keeping in strength and health.

"Water, water, water," was her contribution to this symposium. "I prize nothing so much as the warm bath in getting up and on going to bed. I drink only water unless it be an occasional glass of milk.

"I sleep ten hours and go to bed immediately on my return from the theatre without stopping to take supper. The stupid

worth trying.

Jean de Reszke's usual mode of life resembles Mme. Bernhardt's more than Adessembles Mme. Bernhardt's more than Adessembles Mme. lina Patti's, as he rarely goes out of the house except when he steps into a tightly closed cab. He exercises in his apartments to keep his muscles hard and

to keep his muscles hard and in this way
manages to control his figure and help
himself from growing toe bulky.

But when he goes to Peland in the summer his way of life is quite different. He
is rarely indoors.

He divides his time between his stables

Salzkammergut, she lives in

Mme Sembrich trusts to pedestrianism Mme Semories from steam heat to keep her in good health. In the winter in New York she is in tentral Park on all but the windy days and is kept in the house only by rain or wind. Cold and show never

by rain or whol. Cold and show determined by rain or whole. Cold and show determined the summer she spends in the Tyrol, waiking daily for weeks, with a companion able to stand the long jothneys through several years of practice.

On all her travels the hotel keepers are warned to see that the steam heat is turned off for several days before she is to occupy apartments, and that the heavy draperless are taken down in order not to obstruct are taken down in order not to obstruct the smallight which is showed to pass through every window.

Economic Eastine thever time a thirtial chactor because whe contribute that her voice will be all right if her general health is goest the time to keep that in condition just as if she were not a singer, but any other ordinary, excepted widness. For that end one takes a great deal of nascina. Her takes a great deal of nascina. Her takes in food is simple and she always stays to hed the digital size and make always stays to hed the day ofter an operatic performance, a detail in a limit.

RUN ON JARMULOWSKY'S BANK

SAVES HIM 6 MONTHS INTEREST ON DEPOSITS.

He Pays All Demands and Neighboring Shopkeepers Eagerly Buy Accounts From Waiting Depositors at a Discount-Fourth Run in Fifteen Years.

In some way a rumor, which was pronounced last night by responsible persons to be absolutely unfounded, was started yesterday to the effect that S. Jarmulowsky, banker at 54 Canal street, had failed, or was going to fail, and all day long anxious East Side depositors made a run on the place. Several hundred of them were there as late as 10 o'clock last night, although the "bank" was then closed.

Jarmulowsky opens his place for business at 10 A. M. At 9 o'clock yesterday morning two women, according to a story told last night, went into the bank and asked to withdraw a few dollars that they had on deposit there. They were told that they would have to wait an hour. They went away and, it is said, started the rumor. At 11 o'clock people began to come to the place in droves, over 1,000 having got in line at 6 o'clock. Jarmulowsky and his assistants told them all that they could

assistants told them all that they could have their money and the depositors were paid as fast as they could be. He told them that he was perfectly solvent and could pay up, if necessary, twice as much as was on deposit in the place. He kept his "bank" open two hours past the usual time in order to accommodate the people who were making the run. He notified them that all who drew their money would lose their interest from July.

The shop keepers in the neighborhood made quite a lot of money by buying up accounts at 90 and 95 cents on the dollar from the people who were in line, thereby making not only five or ten cents on the dollar, but also the interest for the second half of the year. One of these East Side financiers alone said he had made nearly \$1,000 by this sort of speculation. Central Office detectives arrested two pickpockets in the crowd.

Office detectives arrested two pickpockets in the crowd.

Jarmulowsky told the reporters that he had never speculated in Wall Street and that all the money which had been deposited with him was invested in first mortgages and gilt-edged notes. As for his solvency he said he preferred to have questioners go to the Presidents of several banks with whom he did business. One of these Presidents said last night that the Canal street banker was perfectly solvent and that he would lend him \$50,000 at any time willingly. It is said there was nearly or quite \$750,000 on deposit in the Canal or quite \$750,000 on deposit in the Canal street place. The banker himself said that this was the fourth run in fifteen years which had been made on his place.

It is unlawful for any individual banker or any person to put forth a sign on a sayings bank or to solicit or receive deposits as a savings bank. It is unlawful for a savings bank to lend on notes.

#### PANAMA CANAL CO. GRIEVANCE. Not Satisfied With Our Commission's Treatment of Its Offer.

Special Cable Despotch to THE SUN PARIS, Dec. 11.-M. Hutin, President of the Panama Canal Company, has communicated to the Temps his letter to President Roosevelt of Nov. 30, detailing the phases of the negotiations for the sale of the canal to the United States. He complains that the Isthmian Canal Commission refused to discuss the company's valuation of the canal, although they offered to transmit to President Roosevelt any proposal the company might submit. The company was thereby deprived of the opportunity for justifying the correctness

of its valuation. The Commissioners wrote to M. Hutin on Nov. 5 stating that they would regard the company's valuation as the final price, out stopping to take supper. The stupid part of the whole thing is that in spite of all these rules, I look more than 17, but even if they den't protect one against the ravages of the years they are at least was willing to make reasonable conces-

#### ATTACKS PALMA AND GOMEZ Senor Cisneros Implies That They Both Should Be Lynched.

pecial Cable Despatch to THE SUN. HAVANA, Dec. 11. Señor Cisneros has ublished a letter in a paper of Puerto Principe, making a strong attack on Sefior Palma and Gen. Gomez. He calls Senor Palma the "assassin of our liberty" and says he cannot see why Gen. Maceo did not hang Gen. Gomez when the latter proposed official figures of the vote of the city surrender in 1978.

He advises Gen. Gomez not to visit Puerto Principe, as he wishes to save him from what he only just escaped in 1878. He implies that the people should lynch Gen Gamez and Sefter Palma.

# COAL OFFICIALS RESIGN.

President and Others of the Patteburg Coal Company Quit.

PITTSBURG, Dec. 11 Frank M Osborne, President of the Pittsburg Coal Company, and C W Baine, Secretary and Auditor have tendered their resignations to the Board of Directors, to take effect on Jan. 1. The resignation of U.A. Andrews, Treasurer of the company, was tendered some time ago, but this fact only developed on the resignation of the heads of the combine.

favor of deciaring a dividend on the common stack. It is said that the Pittsburg holders favored a dividend. The total output of the plants when taken over by the Pittsburg from Company was 11,773,433 tona and the mash water was \$18,704,530. There is predered at said \$25 inc. To Care a Cold to One Bur

TO SMASM TOM JOHNSON. A Taxpayer's Suit to Oust Officials Formin His Political Mach

CLEVELAND, Dec. 11.-The first step toward undermining Mayor Tom L. Johnson's power in politics was taken at Columbus to-day when a quo warranto suit was filed in the Supreme Court to oust from office the Board of Control of this city. The man behind the suit is Frederick J. Van Wye, a sign painter of 38 Woodlawn avenue, and the attorney in the case is Charles D. Gibbons. It is said, however, that they are merely acting at the instiga-

tion of certain Republican politicians. It is asserted that the Board of Control which consists of the Director of Law, the Director of Fire, the Director of Charities and Correction, the Director of Police and the City Auditor, all of whom hold and the City Auditor, all of whom hold office under the appointment of Mayor Johnson, is constituted lilegally on the ground that the act providing for the appointment of the directors is in conflict with the State Constitution.

If the petitioner should win his suit, it would not affect Mayor Johnson directly, as he would continue to serve his term, but it would knock out the powerful machine he has constructed, inasmuch as all of the officials he has appointed and their subordinates, whose appointments he has dic-

officials he has appointed and their subordinates, whose appointments he has dictated, would be ousted. Gov. Nash would appoint a Board of Public Works which would take charge of the city's business, except that of the Treasurer. This board would serve until next spring, when the form of government would revert to that in vogue before the present plan went into effect. The Mayer would be a mere figure-head. Local politicians say that if Mayor Johnson's local machine can thus be broken up all chance of his becoming a factor in State and national politics will be a thing of the past. Director of Law, M. W. Beacon, speaking for Mayor Johnson, pooh-poohed speaking for Mayor Johnson, pooh-poohed any possibility of the present plan of gov-ernment being knocked out and charac-terized the suit as "the last dying gasp of a few cheap skate politicians."

## WHITTET FOR COMPTROLLER.

Dunn and Cole to Be Reappointed-Gov Odell Under the Weather.

Gov. Odell, it was announced last night has decided to appoint ex-Assemblyman Joseph L. Whittet of Buffalo to be Comptroller of the State of New York in place of the Hon. Erastus C. Knight, who is to be sworn in on Jan. 1 as Mayor of Buffalo. Gov. Odell has not been very well for a day or so at his home in Newburgh. But he is a robust man in every respect and has always taken care of himself. He has been

busy for a week or so on his message to the It was said at the Fifth Avenue Hotel It was said at the Fifth Avenue Hotel last night that Gov. Odell is contemplating the reappointment as Railroad Commissioners of the Hon. George W. Dunn, chairman of the Republican State Committee, and the Hon. Ashley W. Cole of Brooklyn. Gov. Odell's friends say that there has never been any question about the reappointment of Col. Dunn, and now it appears that the Governor sees his way clear to reappoint Col. Cole, who has done valiant service for the Republican party in Kings county. This leaves the Hon. Frank M. Baker of Owego, who is a railroad man from the top of his head to the soles of his shees, to be the practical railroad man on the commission.

#### LOW MEETS FUSION ALDERMEN. Dinner at the City Club to Talk Over Majerity's Programme.

Mayor-elect Low, Charles V. Fornes President-elect of the Board of Aldermen Jacob A. Cantor, President-elect of the Borough of Manhattan; President George C. Cromwell of the Borough of Richmond, who is to succeed himself in that office on Jan. 1. and thirty-three members-elect of the Board of Aldermen had a dinner last evening at the City Club at which they discussed the problems which will be before them when they begin their official duties The dinner was a private one. Alderman Elias Goodman of Manhattan and Alderman James McInnes of Brooklyn, each of whom is anxious to be the leader of the Fusion majority in the same of t majority in the next Board, were present and buzzed around among the other Aldermen at a lively rate trying to get support.

President-elect Fornes intends to simplify
the mode of procedure in the Board as much as he can. He is anxious to have as few committees as possible, so that the board will not be so cumbrous and hard to manage as it is now. The rules under which the board is now managed will be subjected to revision, and wherever it is possible im-provements in them will be made.

## official Vote on City Ticket

The Board of Elections gives out these official figures of the vote of the city.

Mayor-Low (1 us.), 296.813. Shepard (Tam.), 295.171; Maniete (Pro.), 1,264. Keinard (Soc. Lab.), 6,213; Hanford (Soc. Dem.), 9,884.80attering, 10; blank, 4,253. defective, 427. Total 583.991. Low over Shepard, 81,856.

BRITISH TO MAKE REFORMS.

WAR SECRETARY SPEAKS OF THE CONCENTRATION CAMPS.

Will Reduce the Numbers in the Presen Ones and Provide New Camps in Better Places-Mr. Brodrick Defends the Camps Only as a Military Necessity. Special Cable Despatches to THE SUN.
LONDON, Dec. 11.—In a speech at Glas-

gow, the War Secretary, Mr. Brodrick, said that the time had come when he was able to do what he wished respecting the concentration camps in South Africa. He proposed to break up the western camps, to reduce the numbers in all of them, and to send the overflow from the Orange River Colony into the Cape Colony and from the Transvaal into Natal. He hoped to provide permanent shelters by the coast, but it must not be expected, considering the people's habits, that the mortality would be reduced to the normal rate of a

British town. Mr. Brodrick did not defend the concentration camps as such, but as military necessities. They had proved the most difficult problem ever undertaken in the annals of war, and had been carried through with credit to British humanity.

LONDON, Dec. 12 .- A despatch to the Morning Post from Brussels says it is stated in Boer circles that Great Britain is inclined to allow a certain number of Boer women. who are detained in the concentration camps, to leave for Holland if the Netherlands will pay the cost of their transporta-

#### BOERS MURDER NATIVES. Kitchener Gives Details of Eight Instances of Such Crimes.

Special Cable Despatch to THE SUN. LONDON, Dec. 11.-Gen. Kitchener has sent a long mail despatch in answer to the War Office's inquiries regarding the reports that Boers are murdering natives. He details eight instances of such crimes in various places, the victims numbering

He mentioned twenty-nine cases of flogging and shooting, the details of which have not yet been received.

#### KITCHENER TAKES THE FIELD. Leaves Pretoria When Gen. Ian Hamilton Arrives There.

Special Cable Despatch to THE SUN. LONDON, Dec. 12 .- A despatch to the Telegraph from Pretoria states that Gen. Ian Hamilton has arrived there, and that Gen. Kitchener has taken the field and is directing the movements of the British

## Capture of a Boer Commando.

LONDON, Dec. 11 .- The War Office has eceived the following despatch from Lord Kitchener, dated Sanderton, vesterday: Bruce Hamilton's column made a night march and surprised and practically captured the whole of the Bethel commando at Trichardsfontein early this morning.

CHINESE COURT CONFERS HONORS Double-Eyed Peacock Feather for Yung

DISCUSSING GERMAN TARIFF.

Agrarian Leader Says America Is Being

Enriched at Europe's Expense.

Special Cable Despatch to THE SUN BERLIN, Dec. 11 .- On the resumption of

the debate on the Tariff bill in the Reichstag

to-day Count von Kanitz, the Agrarian

leader, said be regarded the treaty relati

with the United States as economically

worthless to Germany. The usual "most-

favored-nation" clause granted to Germany

was of no value because the United States

put specifically higher duties upon goods

which Germany exported in the largest

said, showed diplomatic weakness on the

America, he declared, was being enriched

at the expense of Europe. Let not Germany.

he said, offer her left cheek also for Amer-

ica to smite. President Roosevelt's mes-

sage was intended to encourage the free

traders of Germany to fight against raising

duties. He concluded that, at this rate,

Europe would become a province of the

United States. In pleading the cause of

agriculture he quoted the great historian

Mommsen's opinion that the Roman Em-

pire owed its decay to the gradual annihila-

tion of the peasant classes. He demanded

the raising of import duties in the interest

Herr Singer, the Social Democratic

leader, retaliated that the decay of Rome was not due to the annihilation of the peas-

ants, but to the blood-sucking exactions of the landed proprietors. He characterized a union of industrial and agricultural interests as the solidarity of robbers.

CUBANS PRAISE GEN. WOOD

Pleased by His Efforts to Obtain Tariff

Concessions for Them.

Special Cable Despatch to THE SUN.

HAVANA, Dec. 11.-The papers speak

enthusiastically of the endeavors of Governor General Wood to obtain concessions for Cuba from the United States. The Dairio de la Marina, reviewing the situation, says that a number of Congressmen appear to oppose the granting of concessions in order to compel Cuba to ask for annexation. If this is so the plan is well conceived as it will be almost impossible for the astuteness of the members of the new Cuban Government to prevent this if concessions

#### BRITISH SHIPPING'S ALARM. Keenly Interested in Senator Frye's Ship Subsidy Bill.

Special Cable Despatch to THE SUN.

LONDON, Dec. 11.—Although the public s little interested in the new Ship Subsidy bill introduced in the Senate by Mr. Frye and the newspapers give slight prominence to the matter, the subject is keenly occupyng shipping circles.

The Telegraph, which is making a specialty of the subject, states as the result of inquiries that the bill has awakened some ears and a great deal of opposition. One wner figures from THE SUN'S summary of the measure, which was cabled here, that a steamer of 5,000 tons would receive nearly 15 per cent, annually on the cost of construction, which he regards as little short of appalling and threatening to

Some owners apparently are less conerned with the subsidies than with the restriction already imposed by the United States that all trading between American ports must be confined to American vessels, which British shipping men resent most keenly. These regard the subsidies as merely for the temporary purpose of encouraging construction and remark that some countries which have resorted to subsidies have only involved the protectionists in disappointment and created an outcry from the taxpayers, who object to being feeced in order to prop up companies that otherwise would be unable to pay a dividend. So far as inquiries at Liverpool have gone is shown that all shipping men there view the measure with disfavor. Some are considerably alarmed. It is held that the fleet lately acquired by Mr. J. Pierpont

upon speed and the mileage run, enabling the vessels to earn dividends almost inde-Such a condition of affairs would result in ruinous competition with British vessels. On the other hand, where the subsidies

wages, the British are confident that they The foregoing may be taken as a first impression rather than a calculated opinion,

> Yerkes's Victory in London. Special Cable Despatch to THE SUN LONDON, Dec. 12.-The award of Mr. London, Dec. 12.—The award of Mr. Lyttelton, the arbitrator appointed by the Board of Trade, against the Ganz system and in favor of Mr. Yerkes's American system for the electrification of the Metropolitan and District railways has been officially issued.
